

# Sociological Thinking: An Introduction

## 'Common Sense' Explanations

- 'Common sense is not something rigid and stationary. It creates the folklore of the future...of popular knowledge in a given time and place.' Antonio Gramsci
- Or, as Gary Young (2008) puts it, 'Common sense represents the received wisdom of years and the widespread opinion of the day. It may be rooted in fact, fiction, rumour or reality. On one level it doesn't matter. So long as it is commonly held, then, in essence, common sense becomes a fact of life.'
